REPORT OF THE FOREST FIRE WARDEN

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regulations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive wood fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet of standing timber, much of which was never cleaned up. To this hazard

has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future years' fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

Number of Fires	0
Acreage Burned	0
Number Fire Permits Issued	21

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Deerfield:

While war conditions have closed twenty-eight thousand schools in the United States, you have been able to maintain with slight interruption your three elementary schools.

It has also been possible to procure teachers of professional training and successful experience. Mrs. Mary C. Robinson, who substituted for Miss Greenly in the Center School last year, signed contract and resumed her position as a regular teacher in September. At the Parade, Mrs. Eliza L. Brown of Manchester succeeded in September Mrs. Muriel Seavey. Mrs. Brown is a graduate of Gorham Normal School and has taught fifteen years in New Hampshire including several years in the primary schools of Franklin. Mrs. Helena F. Short was elected in July to teach the South School, succeeding Miss Flora Charter who is now teaching in Amherst. Mrs. Short was graduated in 1929 from Keene Teachers' College, and taught for several years in the schools of Hooksett.

The Center School enrolls grades four to eight, inclusive. This leaves only the three lower grades in the Parade School which continues to maintain the largest enrollment of the three schools. The South School now enrolls twenty pupils and includes the eight grades.

The increasing removal of families to military and defense centers is resulting in smaller school registration. The Average Membership last year was above seventy-two. At present the actual enrollment is sixty-four pupils.

The report of your School Nurse, for the year ending last June shows:

Number pupils examined	80
Number of Nurse's visits to schools	62
Number of Nurse's visits to homes	22
Number of pupils excluded because of communicable diseases	28
Number of pupils meeting vaccination requirements	80
Defects found and corrected:	
	Number Receiving Defects affected treatment corrected
Underweight (10%)	8 8 4
Defective vision	5 2
Defective teeth	61 44
Diseased tonsils	5 2
Defective speech	2
Communicable diseases — No. cases Chicken Pox	22

In November standardized achievement tests were given to all pupils in Grades Three, Four, and Five. Following are the average scores attained in terms of the Grade and Month.

Grade	III	IV	V
<i>Standard Score Anticipated:</i>	3-3	4-3	5-3
Reading and Vocabulary	3-4	4-3	4-7
Arithmetic Fundamentals	3-4	4-2	4-7
Arithmetic Problems	2-9	3-8	4-4
English		3-9	4-6
Literature			4-7
History			5-2
Geography			4-9
Spelling	3-0	3-3	3-8
Class Average	3-2	4-0	4-6

Due to the good efforts of your Representative, and of other representatives from similar districts in the last legislature, sufficient appropriation was secured to meet the de-

mands of state aid for elementary schools. As a result Deerfield received this year its total allotment of \$2,750.84.

To effect an economy in transportation three Deerfield children are enrolled in the elementary schools of Epsom.

Recent changes in transportation and employment are reducing the number of your graduates who attend high school or academy. Where recently Deerfield sent to secondary schools nearly thirty pupils, the present year finds only twelve in attendance.

This lack of higher educational experiences, the freedom to explore talents and interests, and the opportunity to choose and develop industrial skills, geared to the period in which youth is maturing, bodes ill for the next generation.

The increasing necessity and responsibility of our schools is best expressed in the report of the Governor's Committee on Vocational Education.

"The schools must help man to learn both to make a living and to make an art of living. The school must be ever ready to help man make a place for himself — a place not only where he can work but where he can work happily and in harmony and understanding with his environment and among his friends.

"These, then, are our responsibilities to youth."

Respectfully submitted,

GEORGE H. HARMON,
Superintendent of Schools.
